CONFERENCE
MAY 11TH-12TH
ONLINE MASTER OF SCIENCE IN COMPUTER SCIENCE

Why Sponsor the 2026 OMSCS Conference?

- Branding** – Increase your company's brand visibility with one of the largest graduate programs in the world.
- Recruitment** – Gain special access to highly skilled computing talent of all professional skill levels and backgrounds.
- Partnerships** – Collaborate with esteemed faculty, researchers, and practitioners in the computer science field.
- Community** – Contribute to building of a vibrant community of students, practitioners, faculty, and researchers who attend the annual conference on Georgia Tech's Atlanta campus.

What is OMSCS?

Georgia Tech's groundbreaking Online Master of Science in Computer Science (OMSCS) program revolutionized mass online higher education. Founded in 2014, OMSCS was the first Master of Science in Computer Science degree offered by an accredited university available to students in a fully online format. Lauded by Forbes as "[The Greatest Degree Program Ever](#)," OMSCS provides highly affordable, widely accessible, and academically rigorous computing education to students across the globe.

What is the 2026 OMSCS Conference?

The [2026 OMSCS Conference](#) is the fourth annual conference to bring together OMSCS students and alumni to present their work, network with peers, and explore the Georgia Tech campus. Hosted in Atlanta at Georgia Tech's Global Learning Center, the OMSCS Conference highlights the program's dedication to building community and innovation among its diverse and global student body.
